

SAFETY DATA SHEET

Cleaning Vinegar

According to Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice, December 2011

Product identifier	
Product name	Cleaning Vinegar
Relevant identified uses of	the substance or mixture and uses advised against
Uses advised against	No specific uses advised against are identified.
Details of the supplier of the	e safety data sheet
Supplier	Sampson Chemical Products 42 Redcliffe Gardens Drive Clontarf, QLD, 4019 +61 7 3283 4511 sampson_office@bigpond.com
Contact Person	Poisons Information 131126 or Brennan Stark 0428 835 855
Manufacturer	Eco Pro Australia Pty Ltd 42 Redcliffe Gardens Drive, Clontarf, QLD, 4019 +61 7 3283 4511 sampson_office@bigpond.com

SECTION 2: Hazard(s) ider	ntification
Classification of the substance or mixture	
Physical hazards	Not Classified
Health hazards	Skin Irrit. 2 - H315 Eye Irrit. 2A - H319
Environmental hazards	Not Classified
Label elements	
Pictogram	
Signal word	Warning
Hazard statements	H315 Causes skin irritation. H319 Causes serious eye irritation.

Precautionary statements	 P264 Wash contaminated skin thoroughly after handling. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P302+P352 IF ON SKIN: Wash with plenty of soap and water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P321 Specific treatment (see medical advice on this label). P332+P313 If skin irritation occurs: Get medical advice/ attention. P337+P313 If eye irritation persists: Get medical advice/ attention. P362+P364 Take off contaminated clothing and wash before reuse.
Contains	Acetic Acid

Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition and information on ingredients

Mixtures

Acetic Acid	1-10%
CAS number: 64-19-7	
Classification	
Flam. Liq. 3 - H226	
Met. Corr. 1 - H290	
Acute Tox. 4 - H302	
Acute Tox. 4 - H312	
Acute Tox. 4 - H332	
Skin Corr. 1A - H314	
Eye Dam. 1 - H318	

The full text for all hazard statements is displayed in Section 16.

SECTION 4: First aid measures

Description of first aid measures

General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.
Inhalation	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues.
Ingestion	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.
Skin Contact	No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.
Eye contact	Rinse with water. Get medical attention if any discomfort continues.
Protection of first aiders	Use protective equipment appropriate for surrounding materials.
New category	
Most important symptoms and effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Hazardous combustion products Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. Advice for firefighters Protective actions during firefighting Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat wit water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, water spray to disperse vapours and protect men stopping the leak. Control run-off water containing and keeping it out of sewers and watercourses. If risk of water pollution occurs notify appropriate authorities. Special protective equipment for firefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protectothing. Firefighter's clothing conforming to Australia/New Zealand Standards AS/NZS 48 (for clothing) AS/NZS 1801 (for helmets), AS/NZS 4821 (for protective boots), AS/NZS 18 (for protective gloves) will provide a basic level of protection for chemical incidents. SECTION 6: Accidental release measures Personal precautions No specific recommendations. For personal protection, see Section 8. Environmental precautions Avoid discharge into drains or watercourses or onto the ground. Methods and material for containment and cleaning up	OFOTION 7. Handler and	rage, including how the chemical may be safely used
Skin contact No specific symptoms known. May cause discomfort. Eye contact No specific symptoms known. May be slightly irritating to eyes. Indication of any immediate medical attention and special treatment needed Notes for the doctor Treat symptomatically. Specific treatments No specific treatment required. Suttable extinguishing media The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire. Unsultable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Special hazards Containers can burst violently or explode when heated, due to excessive pressure build-ut Hazardous combustion products may include the following substances:: products Protective actions during firefighters Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat w water spray and remove them from the fire area if it can be done without risk. Cool containers no trify appropriate protective actions for denies is out. If a leak or spill has not ignited, water spray to disperse vapours and vatercourses. If risk of water pollution occurs notify appropriate authorities. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective for is protective gloves) will provide a basic level of protection for chemical inclustes. Special protective equipment and energency procedures Personal precautions for c	Reference to other sections	For personal protection, see Section 8.
Skin contact No specific symptoms known. May cause discomfort. Eye contact No specific symptoms known. May be slightly irritating to eyes. Indication of any immediate medical attention and special treatment needed Notes for the doctor Treat symptomatically. Specific treatments No special treatment required. SECTION 5: Firefighting measures Extinguishing media Suitable extinguishing media The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire. Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Special hazards arising from the substance or mkture Special brazards Specific sympt and leason or combustion products may include the following substances: products Harmful gases or vapours. Advice for firefighters Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat w water spray and remove them from the fire area if it can be done without risk. Cool container spray to disperse vapours and protectime the storad and papropriate protective actions for protective extension discust or discust and vater courses. If risk of water pollution occurs notify appropriate authorities. Special protective equipment for firefighters Wear spray and remove them from the fire area if it can be done without risk. Cool containe exposed to flames with water until well after the fire i		
Skin contact No specific symptoms known. May cause discomfort. Eye contact No specific symptoms known. May be slightly irritating to eyes. Indication of any immediate medical attention and special treatment needed Notes for the doctor Treat symptomatically. Specific treatments No special treatment required. SECTION 5: Firefighting media The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire. Special hazards arising from the substance or mixture Special hazards Specific hazards Containers can burst violently or explode when heated, due to excessive pressure build-u Haarmful gases or vapours. Advide breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with alcohol-resistant foar water or divide; appropriate authorities. Special protective equipment Water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or split has not glinted, water spray and remove them from the area are it is out. Supporting the prostive pressure self-contained breathing apparatus (SCBA) and appropriate protective gloves) will provide a basic level of protection boots). Cleaning Vinegar

Precautions for safe handling		
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists.	
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.	
Conditions for safe storage, ir	ncluding any incompatibilities	
Storage precautions	No specific recommendations.	
Storage class	Chemical storage.	
Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure control	ols and personal protection	
Control parameters		
Exposure controls		
Appropriate engineering controls	No specific ventilation requirements.	
Eye/face protection	No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.	
Hand protection	No specific hand protection recommended. Large Spillages: Wear protective gloves.	
Hygiene measures	Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.	
Respiratory protection	No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.	
Environmental exposure controls	Not regarded as dangerous for the environment.	
SECTION 9: Physical and che	SECTION 9: Physical and chemical properties	
Information on basic physical and chemical properties		
Appearance	Clear liquid.	
Colour	Clear.	
Odour	Pungent.	
рН	2 - 3	

 Other information
 None.

 SECTION 10: Stability and reactivity

 Reactivity
 There are no known reactivity hazards associated with this product.

 Stability
 Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.

Possibility of hazardous reactions	No potentially hazardous reactions known.
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
SECTION 11: Toxicological inf	formation
Information on toxicological eff	rects
Toxicological effects	Not regarded as a health hazard under current legislation.
Acute toxicity - oral Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
ATE oral (mg/kg)	5,050.51
Acute toxicity - dermal Notes (dermal LD∞)	Based on available data the classification criteria are not met.
ATE dermal (mg/kg)	11,111.11
Acute toxicity - inhalation Notes (inhalation LC50)	Based on available data the classification criteria are not met.
ATE inhalation (vapours mg/l)	111.11
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	None of the ingredients are listed or exempt.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.

Specific target organ toxicity - repeated exposure	
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard Aspiration hazard	Based on available data the classification criteria are not met.
General information	No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known. Spray/mists may cause respiratory tract irritation.
Ingestion	No specific symptoms known. May cause discomfort if swallowed.
Skin Contact	No specific symptoms known. May cause discomfort.
Eye contact	No specific symptoms known. May be slightly irritating to eyes.
Route of entry	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.
SECTION 12: Ecological Inform	mation
Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.
Toxicity	Based on available data the classification criteria are not met.
Persistence and degradability	
Persistence and degradability	The degradability of the product is not known.
Bioaccumulative potential	
Bioaccumulative Potential	No data available on bioaccumulation.
Mobility in soil	
Mobility	No data available.
Results of PBT and vPvB asse	essment
Other adverse effects	
Other adverse effects	None known.
SECTION 13: Disposal consid	erations
Waste treatment methods	
General information	The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way.
Disposal methods	Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority.
SECTION 14: Transport inform	nation

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

UN number

Not applicable.

UN proper shipping name

Not applicable.

Transport hazard class(es)

No transport warning sign required.

Packing group

Not applicable.

Environmental hazards

Environmentally hazardous substance/marine pollutant No.

Special precautions for user

Not applicable.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Inventories

Australia - AICS

None of the ingredients are listed or exempt.

SECTION 16: Any other relevant information

Training advice	Only trained personnel should use this material.
Revision date	23/02/2018
Revision	1
SDS No.	5180
General Information	The following risk and hazard statements are to be considered a glossary. They relate to the raw materials used in this product and therefore may not be accurate for the finished product itself. For the complete risk and hazard statements for this product please refer to section 2 of this Safety Data Sheet
Hazard statements in full	 H226 Flammable liquid and vapour. H290 May be corrosive to metals. H302 Harmful if swallowed. H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H318 Causes serious eye damage. H319 Causes serious eye irritation. H332 Harmful if inhaled.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
